MEMORANDUM FOR MR. DULLES

25X1

I have spoken with [] about the request of Mr. Walter Beck of the National Geographic Society for certain materials in the geographic field produced by CIA. [] believes that if you have any reason to wish to do so we could probably permit the map research bulletins (which are classified RESTRICTED) to go to the National Geographic Society under certain controls. However, [] does not strongly favor doing this. In spite of the cooperation the Agency is receiving from the National Geographic Society in connection with forthcoming meetings, he feels that most contacts with the National Geographic Society have been developed with the Society's interest at heart and not as a service to the government. He did feel that if we extended any such privilege to the National Geographic Society, we should by all means do as much as, if not more, for the American National Geographic Society to which, he feels, we owe a considerable debt of gratitude.

25X1

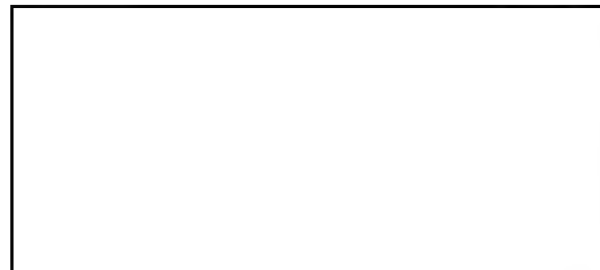

25X1

25X1

I would summarize [] views by saying that we should not make any materials available to the National Geographic Society.

CONFIDENTIAL

22 April 1952

Mr. Dulles:

MR. WALTER BECK, National Geographic Society, called to say that you had asked him to check with you re a memorandum he gave you when he called on you on April 10. This memo had to do with [redacted] and I believe this memo was the matter that [redacted] of the Geographic Div., ORR, wanted to speak to you about when he phoned the other day (we were never able to return this call). Do you wish to speak to [redacted] about ^{this?} ~~it now?~~
